Report

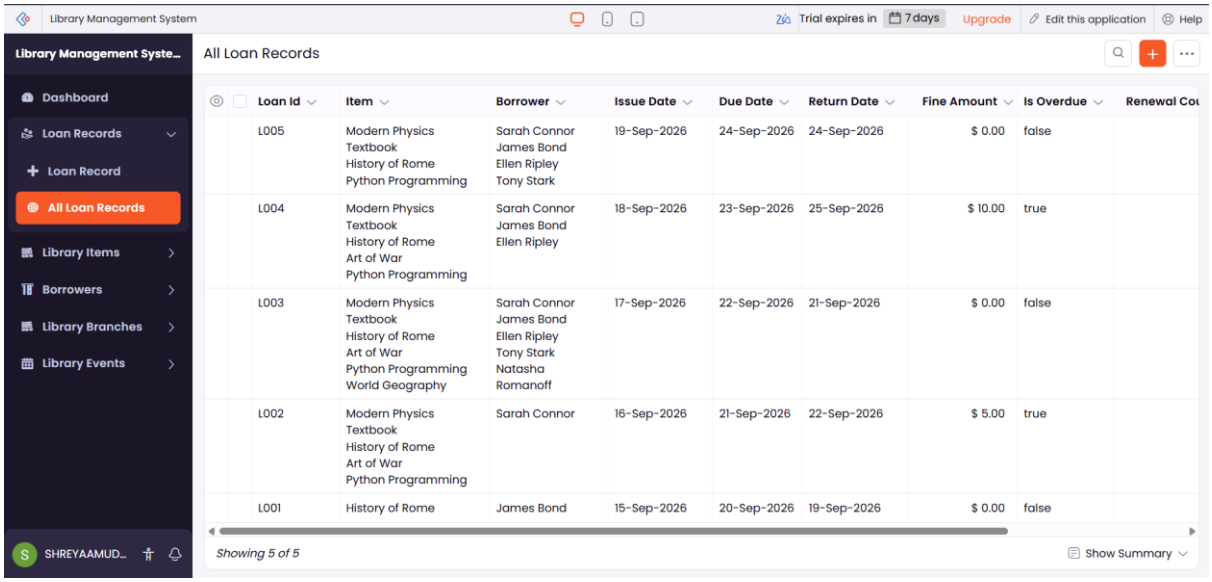

Aim:

To create simple reports in Zoho Creator for a Library Management System without using Zia, using the existing forms and data for Loan Record, Library Items, Borrower, and Library Events.

Procedure:

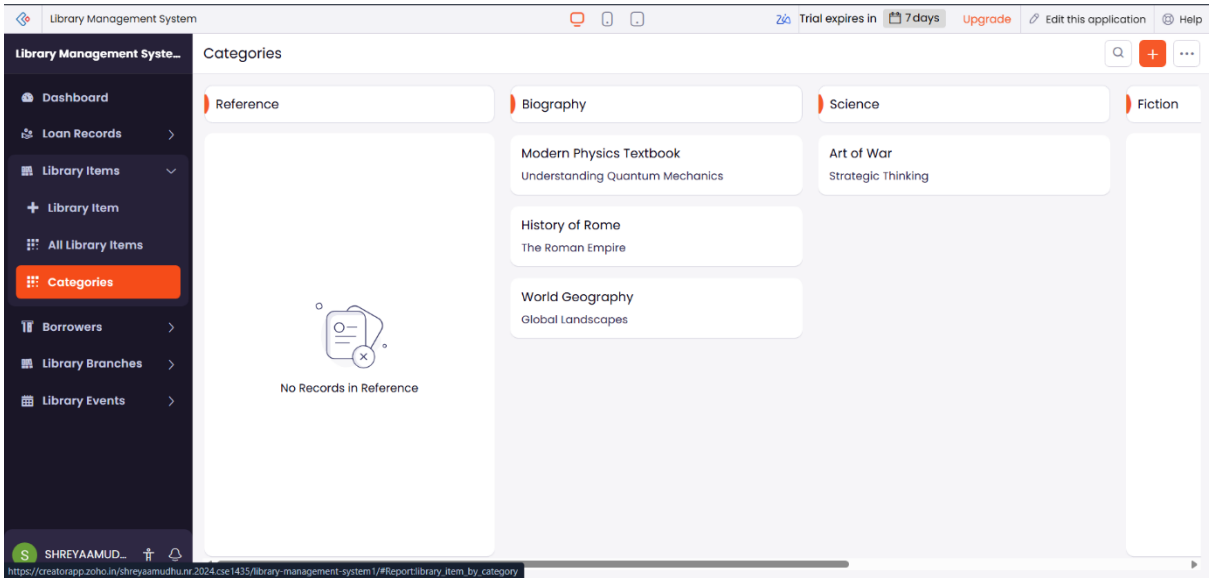

1. Open the Zoho Creator application containing the Library Management System.
2. Open the application in Edit mode.
3. Select the Reports section.
4. Click Create Report and choose the required form as the data source.
5. Create a any Report for the Loan Record form to display loan details such as borrower, library item, loan date, and return date.
6. Create a any Report for the Library Items form to display item details such as item name, type, author, and availability.
7. Create a any Report for the Borrower form to display borrower details such as name, contact information, and borrower ID.
8. Create a any Report for the Library Events form to display event details such as event name, date, location, and description.
9. Select the required fields for each report and arrange them in a simple tabular format.
10. Save and open each report to verify that the existing records are displayed correctly.

Result

Thus, four basic reports—Loan Record, Library Items, Borrower, and Library Events—were successfully created in Zoho Creator without using Zia. The reports display the existing Library Management System data in a simple and organized tabular format.
